

**Pre-K Registration: Step 2**  
**Eligibility, Proof of Residency and Required Medical Forms**

**Q. Is my child eligible for Georgia's Pre-K Program?**

- A. To participate, children must be four years of age on or before September 1 of the school year and must be a resident of Georgia. If a child is not served as a four year old, then the child may be eligible to attend the Pre K Program as a five year old. However, programs may choose to deny enrollment into their Pre-K program children who are age eligible for kindergarten.

If enrolled, parents of children who are five years of age on September 1, 2015, and age eligible for kindergarten will be asked to sign a *Parent Acknowledgement Form* indicating that the child did not previously attend Georgia's Pre K Program for longer than 30 days.

Children who are six years of age on September 1, 2015, and are age eligible for first grade are not eligible for enrollment in Georgia's Pre K Program.

**Q. How do I prove my child's age?**

- A. Proof that a child is age eligible and is a Georgia resident is required to register for Pre-K. Acceptable proof-of-age includes birth certificate, passport, hospital record of live birth, green card, pink card or Federal I-94 card. You may order a birth certificate online directly from Georgia's State Office of Vital Records using Official Vital Event Records (ROVER).

**Q. How do I prove Residency?**

- A. Acceptable proof-of-residency includes a lease, utility bill or letter from a shelter or employer.

**Q. What Medical Records or Screenings are Required?**

A. All children enrolled in Georgia's Pre K Program must have hearing, vision, and dental examination certificates (DHR Form 3300) on file within 90 calendar days of program entry. Form 3300 must be signed by a private practitioner or representative of a local Department of Health.

Immunizations (DHR Form 3231) must be up to date or affidavits must be on file within 30 calendar days of program entry.

Only health departments and physicians licensed in Georgia can obtain blank immunization certificates (Form 3231).

Take your child's personal immunization record to a health department or Georgia physician and they can complete the form and give any required vaccines.

**Do you know that Whitefoord has a medical clinic with a Pediatrician and Dentist who can perform all required screenings and provide any needed vaccines?**

**Call the Whitefoord School Based Health Center at 404-588-0101 today for your appointment. The Health Center is open to all children and adults and offers a sliding fee scale for affordable payments.**
